January 4, 2017

To Whom It May Concern:

Ref: Natural Latex Rubber Sponges

In response to several inquiries, we have examined the need to provide a Safety Data Sheet (SDS) for our sponge items. Final rules on chemical hazard communications were issued by OSHA and Hazard classification:

The Dry Cleaning Soot Sponge does not contain any hazardous chemicals, therefore is not classified as hazardous according to OSHA Hazard Communication Standard, 29 CFR 1910.1200, which makes it exempt from the Act.

If new information becomes available, we will forward the same on to you.

If there should be any questions, please do not hesitate to contact us.

Sincerely,

Sherri Coldewe Executive Officer
